COMPOUND SYRUP OF
Sarsaparilla and Pipsissewa,
Prepared only by
ALBERT EHLERSON,
DRUGGIST AND APOTHECARY,
Apothecaries' Hall, 4 Smith's Block,
BANGOR

THIS article is confidently recommended as a cure for all diseases arising from an impure state of the Blood such as *Scrofula Salt Rheum Syphilitic and Mercurial Diseases, Cancerous Sores Pimples and Diseases in the skin generally* This Syrup is highly approved by the Medical Faculty and is recommended as a universal remedy only for the purpose of an alterative, as some would express the same thing properly and renovate the system in all existing diseases where the fluids of the body have lose their vitality

Pipsissewa (the *Chimaphila Umbellata* or *Pyrola Umbellata* as it is variously called by Botanists) was for 1 employed medicinally by the Aborigines of America and was first introduced to the notice of the medical profession in 1803 by the late eminent Professor Dr S L Mitchell of New York Dr Peters of Georgia says that it has an alterative in Scrofula and in other chronic diseases—it is generally supposed to possess almost specific powers and Dr Paris of London speaks of a practitioner who relies wholly for success upon Pipsissewa "By which he is enabled to cure Scrofula in its worst forms

When taken into the stomach, it acts as a tonic, producing an agreeable sensation and assisting the digestive and digestive process, it promotes the action of the secreting organs more especially the kidneys over which indeed it appears to exercise a specific influence In order to insure essentially the benefit derived from Sarsaparilla, we have most admirably combined the Pipsissewa with it so that its tonic and diuretic qualities will materially promote the good effects of Sarsaparilla

DR CUMMINGS'S
Compound Extract of Sarsaparilla and Dock.
THE articles above named are the principal ingredients of this medicine With these other of vegetable origin are combined, designed to render them more active, and consequently more immediately effective

The Dock or rather a species of it now ranks as a medicinal plant second to none of the vegetable kingdom Will the list of which the proprietor has not suited in the preparation of the compound he has recently discovered the efficacy of the extract of the root for a period of a considerable length of time

For many years the proprietor has tested it has practice the efficacy of the principal substances of the compound and is positively satisfied that they possess all the properties which have been ascribed to them It combines in itself the power of uniting them which has prevented the polarization of the compound In the single ingredient are found to act in harmony and to lose none of the qualities which they separately possess

A larger portion of Sarsaparilla is used than has generally been supposed The extract used to be relied on and least liable to decomposition is procured by subjecting the root to the action of the menstrum usually employed in extracting its virtues for a long time without the use of any other accelerating agent None is permitted to be used in the compound, that has not been distilled by this process and that has been less than a year in preparation

The Compound is recommended for Scrofulas Erysipelas, Uterine affections Eruptions and Mercurial diseases Also for the numerous maladies arising from seds it is equally powerful in its action of a harassing and fatiguing nature internal applications, exposures to extremes of heat and cold, overlooking the physical powers and other abuses of the constitution among which are Rheumatism Dyspepsia or Indigestion &c

In diseases of warm climates with which the proprietor has become familiar in his practice in Havana for many years it (the compound) will prove particularly efficacious both as a remedy and preventative

This medicine has been for some time in use this city where the proprietor has passed nearly half a century of his professional life It was earnestly prescribed by him while in practice and is believed to be in favor with his medical brethren in general to whom he is known

Prepared only by Dr Stephen Cummings and sold at wholesale and retail by Jos Peabody No 113 Middle street and by Peabody and Perkins No 158 Middle street—only agent for Portland

The Great Remedy for Gonorrhœa or Gleet, Stricture, and all malignacous complaints, is **Dr. DOUGLASS'S ARABIAN PASTIL.** Dr Douglass is well known having practised in the principal cities in the Union during the last 40 years This is the reason for introducing the Pastil in this public manner, is the consciousness that there are thousands of ill treated complaints in this city, thousands of individuals who are going down to premature graves by taking the miserable drugs of quacks

Dr D most solemnly affirms that during his practice of forty years, this Pastil has never, in one single instance failed of effecting a cure in a few days without any change of diet or his drance from business He has had some of the most stubborn cases—cases that have resisted the regular course of treatment adopted by our first physicians, for months and even years but after taking the Pastil for few days the angry symptoms disappeared and the patients were discharged entirely cured

If the unfortunate victims of drugging themselves will quack nostrums, won't purchase only one box of the Arabian Pastil we should not see so many unexpected bodies and sad countenances as we do in the streets of this town

If in case this Pastil should fail to effect a cure in the shortest possible time, ten times the price paid for it will be given by the purchaser on returning the empty boxes

For sale only by the original inventor and sole proprietor Dr PETER C DOUGLASS at his Office No 56 Union street, Boston at $5 per box where he can be confidently consulted on every disease incident to the human frame and the patient rely upon the most beneficial course of treatment that can possibly be adopted

PROGRESS.

Hon John Minor Botts of Virginia, has declared in a speech delivered by him in New York city on Tuesday evening last, the 5th of Sept of the three candidates for the Presidency before the people, that Van Buren had been tried and found wanting Gen Cass could not be tried, and he should give his vote for Gen Zachary Taylor, because that every whig vote withheld was half a vote for Gen Cass With Zachary Taylor there would be, at least a chance for a good government while with Gen Cass there would be a certainty of a bad one

On Wednesday evening Horace Greeley Esq, the editor of the New York Tribune announced his intention of supporting Zachary Taylor for the Presidency and his widely circulated and influential paper on Friday run up the Fayet flag, and will give the honest old hero its support

In Massachusetts the whigs are at work, and very thoroughly aroused to the importance of electing Zachary Taylor for the next President Scarcely in 1810 were the whigs of the Bay State more active, enthusiastic and hopeful than now

A very deep impression rests upon the minds of the people generally that Gen Taylor will be elected, and that he will infuse honest principles and conservative measures into the administration of our national affairs and thus secure the quiet and the prosperity of the whole people

Let the Whigs of Maine renew their courage and work with increased zeal in the main, and thus not only secure the vote of Maine for the honest patriot but act in sympathy with their patriotic Whig brethren in other States

☞ On Thursday the 21st, Mr Atkinson, living in the Western part of Ellsworth, started from his home for the purpose of examining, with some others a quantity of bark, in the woods His little boy about six years old, soon after started to follow his father, and it was supposed by the mother, on missing him, that his father had taken him along with him, and she rested easy until the return of her husband the next day at noon when she learned the sad story that the father had not seen the child

The alarm was immediately given and the neighbors turned out in anxious search for the little wanderer The number of people was constantly increasing, and the search kept up night and day until Sunday noon when the child was found dead in the woods about a mile from his father's house There were then at least three hundred people in the woods, and upon the signal being given, all repaired to the house, to see the object of their search, and to offer their consolations to the grief stricken parents

The day following the child's departure there was a severe rain storm nearly the whole day, and the boy was clothed with only a pair pantaloons, shirt and cloth cap

The neighbors made a collection of a few dollars for the parents, who are very poor

☞ We understand that a letter has been received from Mr James Bergen, an American citizen, now in prison in Belfast, praying, stating that he will probably soon be permitted to return home His wife, in connection with some of her friends in New York, had written to the State Department, at Washington, asking whether any steps had been taken by the Government, to which only he owes allegiance, to have him set at liberty We understand that our minister in England has interfered in his behalf

Constable Albert G Hunt of this city arrested on Friday a man by the name of John McClure upon a charge of forgery McClure offered a check for $180 to one of our Mercantile firms in payment for goods which they had put up to his order, but before the goods were taken they ascertained that the check was forged and entered a complaint The forger was examined and committed to jail, to wait his trial, for the want of Bondsmen

☞ A great Whig meeting was held at Vauxhall Garden New York, on Wednesday evening at which Judge William Kent presided Resolutions were read, and addresses made from three different stands Gen Leslie Coombs made a long and able speech in favor of Gen Taylor

As two young men, sons of Capt Newman, of Essex, were out for shooting quails, the youngest, (Henry,) by some accident, received the whole charge of his brother's gun, being a number of duck shot, in different parts of his body We understand that the fatal result is not anticipated

The Anti-Rent State Convention at Albany have nominated John A Dix for Governor, and George W Patterson for Lieutenant Governor.

IRELAND.

With the exception of a revival of trouble in the neighborhood of Carrick on Suir, the public tranquility continues

Between Carrick and Slievenamon an assemblage of insurgents was got up, supposed by Doheney, although it is rumored that this gentleman is at present confined in Dublin Castle to be produced as a Crown witness at the trials of the State prisoners at Clonmel, on the 21st A Crown summons has been served upon Lord John Russell as a witness in behalf of Smith O Brien Lord John has left Ireland and joined the Royal party

Accounts of the movements and doings of the insurgents at Carrick and in its neighborhood are uncertain and confused They evidently act without concert In Waterford a body of insurgents stopped the mail, near Granny Bridge — Another body more bold had attacked the police station at Glenbower, and in the engagement one of the insurgents was killed A body of troops hastened to the assistance of the police, when the insurgents fled to the hills

FRANCE

Paris is still continued in a state of siege — The Elections coming on in the city produce much excitement It was thought the Red Republicans would succeed in electing some of their candidates It was believed that Gen Cavaignac would meet with many difficulties in preserving quiet He and Gen Lamoriere are not upon good terms

Suspension of the Chief Police Officer of Philadelphia

In consequence of charges made against Mr James Young, Chief of the Police Department of Philadelphia, of complicity in the robbery of Dr Darlington, President of the West Chester Bank, he has been suspended from office The charges are, a knowledge of the perpetrators, and an alleged participation of the proceeds of that daring felony

☞ The Portland Umpire states that several stores have recently been broken open in that city and that Reuben Ordway, Esq one of the publishers of the Advertiser, was knocked down on Friday night, but he escaped without further injury The object of these desperadoes is plunder and the Police there will soon ferret them out

Passed Midshipmen.

Among the midshipmen who passed their examination at the Annapolis Naval School, at the term just closed, are Francis G Dallas, William D Whiting, William W Lowe, and Joseph E Smith, of Massachusetts, Greenleaf Cilley and Francis G Clarke, of Maine; William De Koven, Connecticut, Charles G Hunter, and Edward A Selden, Vermont

The Raleigh, North Carolina, Standard states that Wheat and Corn crop in North Carolina are likely to turn out finely The Rice crop is said to be fair and of a good quality, and the prospects for Tobacco favorable The continued rains in the month of June have had an unfavorable effect on the yield of Grapes.

J. Fenimmore Cooper, of libel suit memory, has himself, at last, become defendant in a suit for damage for slander The plaintiff is the Rev Mr Tiffany, of Albany, who was denounced by Mr Cooper as "a liar, a scoundrel, and unfit to preach"

Paul Grout, who was formerly pretty well known among New York politicians, has been removed from his place in the New York Custom house, for acting with Mr Van Buren — Warren Carter, of the appraiser's department, has been discharged for the same cause

The New York Evening Post of the 28th says —"There was a heavy frost a little vicinity last night, which we fear has had a withering and blighting influence upon the dahlias, and other tender plants and vines."

MR. CLAY'S VIRGINIA LETTER.

ASHLAND, Sept 12, 1848

My Dear Sir —I duly received your (very kind official letter, transmitting the proceedings of a public meeting, held at the Slash Church, in Hanover county, at which they did me the honor to propose my name as a candidate for the Presidency, in terms highly flattering and complimentary

I recognize among the persons assembled on that occasion, many names with which, in my youthful days, I was very familiar and extremely intimate—associates at school, playmates neighbors, friends The Slash Church, where the assemblage took place recalls many early and agreeable recollections, as being that at which I received a large part of my imperfect education

Regarding those proceedings as the affectionate expression of the esteem attachment, and confidence of my old companions or their descendants, I have never received any similar document with more gratification, or with sentiments of more profound gratitude; and I presume it was in that sense that the proceedings occurred, and were transmitted by you to me

Considered as a serious and formal presentation of my name to the people of the United States as a candidate for the presidential office I am sure that you will not be surprised at my saying that it is impossible for me to accept the nomination

My name, with my consent, was submitted to the consideration of the Philadelphia Convention, which assembled in June last That body thought proper to nominate a distinguished citizen of the United States and not me In view of the relation in which I stood to the Convention I do not think that I ought to pass any judgment upon its proceedings It is sufficient for me to know that it did not deem it expedient to nominate me In this decision I have entirely acquiesced I have quietly submitted to it, and have given no encouragement or countenance to any further use or connection of my name with the Presidency To this effect I have uniformly written to all associations and individuals who have addressed me on the subject,

I hope that my good friends at Hanover will approve of my adherance to this resolution, dictated by my honor by a regard to my character, and by my desire of retirement Tell them under what great obligations they have placed me, and that I shall cherish the proofs of their friendship and confidence, which you have sent me, amongst the most precious treasures of my memory

Now can I conclude without tendering to you, personally my grateful acknowledgements for the kind and flattering terms in which you have addressed me, and especially for your touching allusion to the venerated memories of my lamented parents. I am, with high respect

Your friend and obedient servant
H CLAY.

LIME AND PLASTER FOR MANURE

To the Editor of the Whig and Courier

"There are certain tracts upon which gypsum acts favorably while on others it does no good; and there are those where liming is required, and others where it is not"

[Jackson's Geology of Maine

My text is unquestionably true It is important, therefore, that every farmer, learned or unlearned, should be able to decide for himself, upon what soil to apply plaster, and what kind of land requires lime, It is my purpose, in writing these number, to give this information — But before doing so, I deem it proper to review the subject as it has been presented to the public by learned professors and others

In his second report, page 166, Doctor Jackson says —"Gypsum is said to operate well as a stimulant to vegetation, and acts powerfully where the soils are calcarious In Pennsylvania, it is sown broad cast upon their lime stone soils, and operates powerfully, favoring the growth of grain and grasses In Maine, it is the general opinion of farmers, that the mineral does not succeed upon the sea coast, while it answers a good purpose in the interior of the State I am not ye prepared, however, to report upon the subject, since I have not been able to gather the number of facts"

Here we have the admission of a learned chemist and State Geologist, the author of my text, that he does not know why Gypsum does not act as favorably upon the sea coast as upon the interior soils why it is not as good upon one tract of land, as upon another Are we then, the unlettered farmers, to give it up?—Must we wait for professors to hunt up facts to support their conclusions, before we apply lime or plaster to our lands? Certainly not But let us have patience to hear the learned professor further

In his third report, page 188, he says —"Gypsum and sea salt have nearly the same effect upon plants, and hence when the soil derives saline matter from salt water spray, or vapor, gypsum will not benefit the soil, or act as a stimulant upon plants This opinion which is proved in the Prize Essay of Professor Le Caze, on saline manures, explains the fact, well known in Maine, that gypsum exerts but little action upon the soils near the seacoast, but does act favorably on the soils of farms situated in the interior of the state, especially on those which contain small quantities of carbonate or gneate of lime

Suppose this statement to be true, then, why are not the lands on the seacoast as fertile as the lands in the interior? It is not true If it were true, we should have Bay of Fundy fog imported bottled or boxed, and sold to farmers instead of plaster I repeat, it is not true!

The science of Geology should have taught the learned Doctor that the sea coast of Maine is an "iron bound shore," that the rocks contain iron pyrites, which are constantly decomposing and forming an oxide of iron, sulphuric acid, or copperas The sulphate of iron, or copperas, "is a most noxious poison to plants," and not only destroys by its action the delicate plants, as they begin to put forth, but it eats up the vegetable matter in the soil, the food of plants,

Gypsum acts favorably upon a soil nearly in proportion to the undecomposed vegetable matter it contains The lands on the seacoast of Maine are deficient in vegetable matter, in consequence of the sulphate of iron or copperas they contain Farmers call such lands *sour*, and sometimes hungry lands Put 20, 30 or 40 loads of stable or cow pen manure upon an acre of such lands, and in two or three years the crops will be as lean, and the land as hungry, as though it had never been fed Gypsum on such lands will do no good

A GLENBURN FARMER

NOTE In a review of my second number the reviewer remarks "The Glenburn Farmer has a great many good notions on agriculture, and a zeal for its interests highly honorable to him, but has a very common fault as a writer on the theory of agriculture He proceeds to vital conclusions on too few facts and experiments"

I plead guilty to the fault charged, but not to ignorance of what is a correct style, so far as facts and conclusions are concerned Some 20 years since, I took up at a public house, an old English cookery book, and opened to the following —

CHAPTER XX

"Directions for dressing and cooking a Turbot* First catch the fish," &c

This is a striking example of correct writing; and cookery, when they serve up a platter of fish, should suppose he first that the fish was caught before the cooking; for, there are some persons, who, after making a hearty dinner of turbot, would be very slow in coming to the conclusion that they had dined on fish, unless the fact of the catching was made quite plain.

*"Turbot a delicate fish"—[WALKER.

Gen. Santa Anna.

The movements of this distinguished Mexican Chief are thus noticed in the Jamaica Morning Journal of the 4th inst:

"We learn that Santa Anna has a design to make a more lengthy sojourn in his island than he intended, and we do not hesitate to assert in our opinion that our city will likely to become the permanent abode of this distinguished personage We understand that the General together with his wife and daughter, intend setting off to-morrow on a tour to St Ann's, for the purpose of viewing the scenery of that lovely parish Preparations are now being made by certain distinguished parties to escort him and his family, together with his Secretary and Aid de camp The generals and his family are still enjoying good health, and seem to appreciate our Island of Springs It is said that the General's lady and daughters are devoting their time whilst he is to the study of the English language and are both, particularly the young lady, making considerable progress in their studies"

From the above it would appear that that report concerning the extreme ill health of the lady of Santa Anna, which has been recently published in this country, is without foundation

Gen. Jackson's Opinion of Old Zack.

The great foresight of Gen Jackson was one of the most prominent characteristics of his mind We have been placed in possession of an anecdote which is strikingly illustrative of it and one that will be read at the present time with the greatest interest

Gen Jackson, in his sickness, occupied his mind to a very great degree with the subject of the annexation of Texas, as his bodily health failed him, it seemed as if his mind grew stronger impressed with the idea A distinguished clergyman well known for his piety called on Gen Jackson—the conversation, against the clergyman's wishes, turned upon the annexation of Texas After a variety of remarks the clergyman observed that he was afraid that the annexation of Texas would lead to a war with the European powers Gen Jackson still persisted in pursuing this favorable train of thought, when the following conversation ensued

Clergyman—We should be careful, General, how we involve the country in a war, because now that you have retired from public life, we have no great military commander to take the field

General Jackson—We have a commander perfectly competent

The clergyman expressing surprise at the confidence of General Jackson's remark enquired where the people were to look for that man? The General unhesitatingly said—

"LOOK DOWN ON HE MISSISSIPPI IN THE PERSON OF COLONEL ZACHARY TAYLOR —Louisville Courier

CONSUMPTION.

There is, perhaps no disease with which our country is afflicted, which sweeps off annually so many victims, as that fell destroyer of the human race—Consumption Day after day, year after year the inhabitants mourn its ravages to the last list of the cold and silent tomb filled victims to its request No walk of life is exempt from its blighting influence No age is exempt from its death dealing shafts The old the middle aged, and the young all like are food for this common enemy of mankind. The white haired patriarch whose life of temperance has rendered his system impervious to the attacks of other ills, and whose good deeds prepared him for the enjoyment of Heaven, even now, finds Consumption fastening its fangs upon his vitals and tearing him from a world over bright to mortals which look complacently on down well spent.

Is there no help for the afflicted? No preventative of the dangers which beset us in our changable and fickle clime? Why ah there is And if the allegations of those who are most entitled to veracity may be believed, there is a preventative and a remedy.

Wistar's Balsam of Wild Cherry has suffered in a suffering world as such. It needs not the "adventitious aid" of a long string of fictitious certificates to give it notoriety Its true value and intrinsic excellence are sufficient to entitle it to the confidence of the public, and to

WILD CHERRY.

Relieves under the gallows are generally hailed with satisfaction, and the same may be said of

WISTAR'S BALSAM OF WILD CHERRY,

which beyond a doubt has restored many from almost equally sure death, by lung complaints. Mr Fowle, the proprietor, who does a in the article so largely—for people will buy more of it—sends us the following note, which he has just received in the way of business

BRASSBURGH, Vt, May 5, 1847

Mr S W Fowle—Dear Sir—I am nearly out of the Balsam of Wild Cherry You may forward, if you please, two or three dozen more The medicine gives better satisfaction here in pulmonary complaints than any other I have kept I have tried it with perfect satisfaction upon myself—having been troubled with a severe cough for more than a year, and having profane night sweats for the last month I had tried various popular medicines without material benefit, at length I tried Wistar's Balsam of Wild Cherry and before I had finished the first bottle I found great relief Two bottles have wrought a cure Yours respectfully,

PUBLIC AMERICAN AIR TIGHT COOKING STOVE Porter's Patent, manufactured by Hancock Bros N Y

Said Patent having been fully established by the judgment of the Circuit Court of the United States at Boston we hereby give notice that GARDNER CHILSON of Boston has the exclusive sale of said Stove for Massachusetts Rhode Island Maine and New Hampshire All infringements on said Patent will be promptly prosecuted

JOHNSON & COX

N Y July 1st, 1848

The American Air Tight Cooking Stove.

IT is not the best Stove in use why so many seek to infringe upon it? This suit was brought to sustain the Patent and to stop the infringements After a most thorough legal investigation these claims were promptly decided, fully sustaining this Stove.

More than Ten Thousand of these Stoves are now in use The testimony of this multitude the past year establishes the fact beyond a doubt that they are more good and useful qualities combined in this Stove than ever was of probably ever will be found in any other Stove The fire-brick oven is a great value in equalizing the heat around it absorbing the steam, causing the bread to rise and bake light and quick—and giving puddings &c. that flavor of the house bread The kitchen for roasting in front, is convenient The summer arrangement for broiling frying heating of irons &c is admirable—

The economy of the substantial construction and durability of this Stove is the cause of its universal admiration

NOTICE.

WARMING AND VENTILATION on correct and philosophical principles is recently set forth by a unanimous vote of the School Committee of the city of Boston, as will be seen by the printed report of 1847 and 48 which, after a thorough test of it in public and private buildings has been generally adopted in concurrence with the views of several other scientific committees and all other gentlemen whose experience has enabled them to become conversant with this kind of warming and ventilating dwellings churches school houses, hospitals, factories, stores, with an abundant supply of fresh healthful warm air The fact not being allowed to be burnt or in any circumstance consequently the oxygen in the air is not destroyed by coming in contact with red hot iron furnace pots or plates

It has abundantly proved itself to be a complete & perfect system

The subscriber having had the practical knowledge and experience in the construction and erection of these improvements from their commencement

being the inventor of most of them, enables him to be correct in theory and practice

He will give his personal attention to the erection of his Brick Hot Air Ventilating Furnaces, Portable Ventilating Furnace, Dr Clarke's Boarding School Stove also, arranging the Ventilators and Ventilators in all parts of the United States—by addressing him at the Stove Range and Air Ventilating Furnace Establishment, Nos 51 and 53 Blackstone street, where orders will be promptly executed GARDNER CHILSON

Cholera and Common Cholera Morbus

THIS Cordial immediately checks the revolting retchings the pain sickness the shortness and restlessness the bowels are speedily regulated and the healthy state is restored before the attack is over however low the patient may be in the last stage of the disease

Severest cases of Dysentery,

are immediately controlled by the first dose all hyperacidity regulated and the healthy state however severe the attack is in three hours or less in most cases all unpleasant symptoms entirely removed

Chronic Diarrhœa,

either in children or adults (with or without a connection with the Cholera infantum) is speedily cured with this Cordial a few doses generally altogether and shortly restored to perfect health

Cholera Infantum.

It has cured hundreds of many the most distressing cases in children in a few hours and in no instance has it failed to relieve the little sufferer and restore it to perfect health

Sea Sickness

It is a most pleasant and delightful remedy for Sea Sickness It seeks the vomiting and retching stomach at once and by its cordial effects allays all nausea, produces a calm and quiet feeling

Children that are Teething,

during this period should always be provided with this cordial as it will keep the bowels regulated and keep off the fever and inflammation so fatal to children at this time of life and children seldom if ever die with it when it is properly administered

For General Debility and Dyspepsia.

It is a most excellent restorative giving health tone to both the stomach and bowels and prevents food from pressing or disturbing the stomach

CAUTION.

Beware of those impositions which are daily palmed off upon the public bearing the name of MRS KIDDER which is SOOTHING DYSENTERY AND DIARRHŒA CORDIAL which name imposters have borrowed Also they have copied the directions and pretended additions Doubtless they have done this for the purpose of palming off their worthless articles on the experience and reputation of this original and most popular medicine that ever came before the public

Be sure that you obtain MRS E KIDDER'S Cholera Morbus Dysentery and Diarrhœa Cordial and you will get the only true and original article which has ever been held in the highest estimation by the public throughout the whole country

Dr. Townsend's

COMPREHENSIVE EXTRACT OF

SARSAPARILLA,

Roots and Herbs of the Most

THE MOST EXTRAORDINARY MEDICINE IN THE WORLD

The Extracts and Compounds of Roots, Herbs and Barks, are by far more powerful in their curative effects than the simple Roots, Herbs and Barks themselves, as they contain the active principles of the articles from which they are extracted, in a concentrated form, which renders them more than ten times more powerful than the simple articles in their crude state.

SARSAPARILLA AND SUMMER MEDICINES

Can be found in every village in the land, and every man, woman and child can prepare them for use. But the great value of Dr. Townsend's Sarsaparilla and Summer Medicines consists in the fact that they are prepared from the *Concentrated Extracts* of the roots, herbs and barks, and are therefore from ten to twenty times more powerful than the simple articles as they are usually prepared by the people.

10,000 CASES OF INVETERATE DISEASES AND DEATH OF NUMBERLESS PATIENTS

Dr. Townsend's Sarsaparilla was the only remedy that could be relied on to cure the worst cases of Scrofula, Erysipelas, Ulcers, Pimples, Blotches, Boils, Tumors, Tetter, Salt Rheum, Scald Head, Ringworm, Mercurial Disease, Rheumatism, Dyspepsia, Liver Complaint, Female Weakness, Dropsy, Piles, Fever and Ague, Jaundice, Diseases of the Kidneys, Bladder, Urinary Organs, Heart Disease, Neuralgia, Dropsy, Female Complaints, Consumption, Asthma, Bronchitis, Coughs, Colds, Hoarseness, Croup, Diseases of the Throat and Lungs, Diseases of the Nose, Mercurial Diseases, Syphilis, Fever Sores, Old Sores, Blood Spitting, Night Sweats, Nursing Sore Mouth, Whites, Stricture, Gravel, Dimness of Vision, Pain in the Head, Tic Doloreux, Universal Lassitude of the Muscular System, Hysterics, Female Difficulties, Sleeplessness, Nervousness, Nervous Affections, Paralysis, Sick Headache, Diseases of the Skin, Liver, Stomach, Blood, Kidneys, Bladder, Nervous System, Female Organs, Urinary Organs, Heart, Throat, Lungs, Nose, Bowels, Muscular System, Head, Eyes, Ears, Nerves, Womb, Limbs, Joints, Bones, Flesh, Constitutional Debility, Constitutional Affections, Constitutional Diseases, Local Diseases, Local Affections, Local Debility, Local Weakness, Local Nervousness, Local Paralysis, Local Rheumatism, Local Dyspepsia, Local Liver Complaint, Local Female Weakness, Local Dropsy, Local Female Complaints, Local Consumption, Local Asthma, Local Bronchitis, Local Coughs, Local Colds, Local Hoarseness, Local Croup, Local Diseases of the Throat and Lungs, Local Diseases of the Nose, Local Mercurial Diseases, Local Syphilis, Local Fever Sores, Local Old Sores, Local Blood Spitting, Local Night Sweats, Local Nursing Sore Mouth, Local Whites, Local Stricture, Local Gravel, Local Dimness of Vision, Local Pain in the Head, Local Tic Doloreux, Local Universal Lassitude of the Muscular System, Local Hysterics, Local Female Difficulties, Local Sleeplessness, Local Nervousness, Local Nervous Affections, Local Paralysis, Local Sick Headache, Local Diseases of the Skin, Local Diseases of the Liver, Local Diseases of the Stomach, Local Diseases of the Blood. Three persons cured in one house of scrofula by the use of one bottle of this excellent medicine.

THREE CHILDREN

Dr Townsend Dear Sir—I have the pleasure to inform you that three of my children have been cured of the scrofula by the use of one bottle of your excellent medicine. They were afflicted very severely with the disease, have taken only four bottles, it took them away, for which I feel myself under great obligation. Yours respectfully

CAUTION.

Owing to the great success and immense sale of Dr Townsend's Sarsaparilla a number of men who were employed as our Agents, have commenced making Sarsaparilla Extracts, Elixirs, Bitters, Extracts of Yellow Dock &c. They generally put it up in the same shaped bottles and some of them have quite an imposing appearance. They are worthless imitations and should be avoided.

SEARING BLOOD

Accept Sir I am happy to inform you that your Sarsaparilla has done me more good than all the other medicines I have taken for the last 10 years. I was afflicted with a humor which settled in my legs, and finally broke out in sores, which searing my blood, and rendered me unable to work. I was induced to try your Sarsaparilla, and have taken two bottles, which have entirely cured me. I now consider myself sound and well, and can recommend your Sarsaparilla to all who are afflicted with humors.
Yours truly

ERYSIPELAS KITS

Dr. I suppose I ought to add my testimony to the many certificates you have received in favor of your Sarsaparilla. I was afflicted with the Erysipelas in the face, which was very painful and troublesome. I applied to a physician, who gave me a bottle of Sarsaparilla, which I took according to direction, and found relief after taking the first bottle. I have taken in all three bottles, and am entirely cured. I have since recommended it to several persons afflicted with the Erysipelas, and they have found relief in a short time.

BLOOD DISEASE

Dr Townsend—Sir I have been afflicted with a bad humor in my blood for many years, which has troubled me very much. I have tried many kinds of medicine, but found no relief until I took your Sarsaparilla. I have taken two bottles, and consider myself entirely cured. I have recommended it to several persons, and they have found great benefit from it.
Yours truly
JOHN BUTLER Jr

CONSUMPTION CURED

Dr Townsend—Sir I was taken with a violent cough, which settled on my lungs, and finally terminated in a Consumption. I had a very bad cough, raised a great deal of matter, and was very much reduced in flesh. I was induced to try your Sarsaparilla, and have taken two bottles, which have entirely cured me. I am now in the enjoyment of good health, and consider your Sarsaparilla the best medicine in the world for Consumption.
Yours truly

Dr William Wright—Dear Sir—I am one of the many whose aversion to quack nostrums has deprived them of the benefits resulting from the use of good medicines. Acting under the influence of this I have seldom resorted to the Pill box. Last March when you commenced advertising in my paper, I was induced to give your Indian Vegetable Pills a trial, and after having fairly tested their merits to my self and family, gave them a decided preference over every other preparation. In every instance where afflicted with sick head ache, or when the stream of life was encumbered with morbid humors I found speedy relief from the use of your Pills. By taking from four to six on going to bed when indisposed, I have always been restored to health without loss of time and without the expense of a physician. Wright's Indian Vegetable Pills possess the distinguishing merit of operating effectually without disturbing the rest of the patient and in my case without producing even sickness at the stomach.

Respectfully, your friend &c
LEVI TATE

[From the Delaware Express Delhi N Y]

WRIGHT'S INDIAN VEGETABLE PILLS—Although not particularly friendly to patent medicine we must confess that we have become a convert to these pills having had an opportunity on one or two occasions to test their efficacy. For a gentlemanly one, one or two will be found mild though effective. When these and other impurities have accumulated and more thorough medicine is required a dose of three or four of these pills taken in going to bed will be found effectual in cleansing the stomach and bowels, the towels to a healthy state. We speak from experience, and take pleasure in recommending the pills to the public.

Look out for Counterfeits!

Some are to be sold with sugar, others are made to resemble in outer appearance the original article. The safe course is for purchase from the agents only one runner of whom will be found in every town and county in the State.

M'Alister's All-Healing Ointment.

WHEN this Ointment is worn upon the chest and warmed into the heat it penetrates to the organs of the chest, but the wholesome operation is felt in the nerves and the blood which by it is carried to the lungs, stomach and liver, imparting a renewed activity and energy to these organs while it separates and carries away every impurity or humor that may be lodged there and expels it to the surface. Hence the extraordinary rapidity and certainty with which it cures asthma, coughs and liver complaint. Also Headache, indigestion, eruption and jaundice.

Its first action is to open the pores of the skin in part tone and nerves its energy to the skin, and then penetrate to any part of the system, and expel disease and impure particles from the system. It performs precisely in sickness what nature performs for herself in health, having the full use of every function of the body.

It is this power which enables the ointment to sweep off all cutaneous eruptions, skin diseases of every nature, also to subdue all inflammations, fevers and all bowel complaints—in short by keeping open the pores of the skin open and restoring health and nervous energy to all the organs of the body.

Mr James McAlister—Dear Sir—Having purchased a few bottles of your Hair Oil at a manufacturer I persuaded my sister who had lost her hair from some disease of the head to try it. She had used Bogle's Hyperion Fluid and several other articles recommended for the hair without any beneficial results but after having made use of your Hair Oil a short time the hair began to make its appearance and she has now a fine head of hair.

CONSUMPTION CURED!

Buchan's Hungarian Balsam of Life,

THE GREAT ENGLISH REMEDY FOR *COLDS COUGHS, ASTHMA and CONSUMPTION!*

BUCHAN'S HUNGARIAN BALSAM, the Great English Remedy for Pectoral and Pulmonary diseases still stands unrivalled and unsurpassed as the most elegant agreeable and effectual curative of these forms of disease, now known to the civilized world.

Three years time of trial in the United States during which time it has been distributed from Maine to Florida has only served to establish its pre-eminent merit in all parts of the country, as the great and only RELIABLE REMEDY in the worst cases of Pulmonary disease and the first and most agreeable curative of all the slight forms of colds, cough and inflammations that can possibly be found.

INCONTESTIBLE PROOFS

Of the efficacy of this balsam in the worst forms of Consumption

IMPORTANT MEDICAL TESTIMONY

DR BRADLEE—Dear Sir—This Hungarian Balsam is beyond all question the most perfect and admirable preparation for diseases of the Lungs I have used it in my family, and in my profession and practice for more than two years with the most uniform and entire success in cases of *severe Pulmonary disease* and I can conscientiously recommend it to all who are afflicted as the most certain remedy for such diseases with which I am acquainted. Yours respectfully,

Reliable Evidence of the Efficacy of BUCHAN'S HUNGARIAN BALSAM

[From the Christian Freeman]

While we respond to quackery we are always pleased to give credit for that which actually does and to give information which may be of use. A few days ago a business man from Norway Me came into our office in some comfortable health whom we did not at first expect to see again so north. We were curious to learn a few words, if none of his brother residents in the house with a cough so hard he was confined to his bed and suffering a great deal, and was not likely long to survive. Judge then of our surprise to see him in our office. He informed us that he had been using Buchan's Hungarian Balsam until he has had but little cough for some weeks past. But he gave us a full history of the case, which he desired us to publish, and which we shall do, as it may be the means of saving many a life. The following letter which he addressed to the proprietor of Buchan's Balsam for the benefit of the public will show what he has been the means of doing.

Boston Feb 16 1847

Dr D F Bradlee—Sir—I can refrain from saying a few words in favor of Buchan's Hungarian Balsam of Life. Having for a long time been afflicted with a severe cough, and having tried various remedies without effect, I determined to try one more, and that was Buchan's Hungarian Balsam of Life. I had not taken more than one bottle before I found relief, and by the time I had taken three bottles I was entirely cured. I have since recommended it to many persons who have used it with the same success. I have also given it to my children when troubled with the croup, and it has never failed to relieve them in a few hours. I have no hesitation in saying that I believe it to be the best medicine for coughs, colds, croup, and all diseases of the throat and lungs, that I have ever seen or heard of. Yours truly,
JOSEPH CUTTER
Firm of Cutter & Wilson

BY WISE TO DAY

Delay in any of such symptoms tendency is complicity in such a folding recklessness. Disease fastens its grasp upon the system, and the only safe course is to use the GREAT REMEDY, which will cure you. Buchan's Hungarian Balsam of Life is the only remedy that can be relied on in the worst cases of Consumption. Its wonderful curative powers are known to all who have used it. Beware of worthless imitations. Be sure you get Buchan's Hungarian Balsam of Life. Price 75 cents and $1 per bottle, or six bottles for five dollars.

PRIAM OF TROY

AIR TIGHT COOKING STOVE,

IMPROVED FOR 1848

Combination of the greatest improvements of the age—Four sizes.

THIS Stove commends itself to the attention of Families and Business Men who are interested in cooking *Economically and Convenience* with their Domestic Affairs. As all food passes the ordeal of the Cooking Apparatus to make it palatable or proper for use it is very important if at every family should have the best Apparatus for the purpose and which the same shall consume the *least wood* or fuel or incur the *least expense.*

PRIAM OF TROY IS THE STOVE

for it has a very LARGE OVEN probably as large as any (equal size) Stove ever offered to the public which is heated quickly and perfectly even by one set of Deep Hollow Grooves, in the back and bottom of the Oven exposing from *three to six hundred* square inches more surface to the Oven that can be done by a plain surface. Consequently a very small amount of fuel being arranged in this Air Tight Stove and applied to the Grooves runs one of the *BEST BAKING OVENS* to be found in New England.

There is a Set of large Rims or Rings connected with the Stove so that our Farmers and all who wish to use large Bruse or Iron Kettles or any kind of old fashioned Ware holding from one to ten pails can do it at their pleasure. The whole Stove is regulated by means of only ONE DAMPER, is neat in its appearance and in fact is one of the *best Companions for the Kitchen* now in use, as thousands who now have them will testify.

Patent Mill Wheels,

Timbey's Patent
Two Vent Cast Iron Water Wheels
—for—
SAW MILLS,
Invented by T R. Timbey of Calais

THE undersigned would call the attention of the Public to the above Patent Wheels which have been thoroughly tested for SAW MILL WHEELS in use at the present time and he can recommend them with the same confidence of water applied as passes through any other wheel of the same power. They have more *Strength and Speed* and give a greater power with *less water*. They have *No side Motion* in and out of the gate, are not liable to be out of order, and *run more Lumber* under all circumstances than any other Wheel in use.

Another advantage which they have over others is that it is easy to get at the wheel for the discharge of water and they can be made to fit flumes larger and smaller than the wheel without filling up the Wheel.

Persons wishing to adopt the Use of Water Power will do well to call and examine before purchasing elsewhere.

We could also call the attention of Millwrights and Operators to the

Valentine's Patent Reversing Centrifugal Water Wheel

WHICH are adapted for any Machinery in Mills or Mills and are made to give any amount of power. They have a reputation on the Penobscot River for full operation and overall use, and wherever they are introduced, and have been tried, they have given entire satisfaction. As evidence of the same the following extract from a letter received by the subscriber will suffice:

MARY BRADLEY Co Pa
Mess Wilcox & Co—I have no hesitation in saying that the Valentine Wheel you put in for me is the best I ever saw. It is the most economical wheel for power I ever used, and I have seen all kinds in use. I would not take twice the price I paid for it if I could not get another.

The Wheel is adapted to low falls of water, and will operate well when the water is but a few inches above the bucket. But a Wheel of this kind will give more power with a high fall of water than any other Wheel. The Wheel is so constructed that the water runs off and not give its best effect. The Wheel would be well to have a pass easily access to the wheel to examine it. It is also less in the cost of repairs and is very much less in the cost of repairs and is very much less in the cost of repairs and is very much
